

Experience

Self-employment- UX Designer

June 2020 - Current

Designing and redesigning websites both for desktop and mobile. Holding the workshops in order to get to know clients' needs and create a company strategy. Creating UI design and Design Systems.

Architect Trainee - Grupa KMK

Katowice, August 2019 - April 2020

Working in a multidisciplinary company. Daily contact and cooperation with foreign clients. My duties include the automation of architectural projects, the creation of 3D models, and project documentation.

Social Media Manager- Majowa Szkoła Tańca

Zabrze, 2017- 2019

My work was building customer relations, managing social media, and website. I was responsible for graphic and copywriting materials for web and social media. I was organizing events and Facebook ads campaigns. Beyond that, I worked on the visual layer of the site cooperating with a web developer.

Education

Silesian University of Technology- Architecture 2016-2020

Courses

- Corporate Readiness Certificate - UX Design Journey / ING Tech 2019
- Creative Skills for Innovation from Google / Katowice december 2019

Projects and achievements

First place in hackathon „Sensorycznie i na serio” / 13th of September 2020

„Silent Alert” application concept alerting deaf people to the dangers in the area and help them evacuate. The information is translated into sign language. The application provides three different ways of getting help. The recipient can call the relevant service, call an interpreter, or try to get in touch with someone nearby by using the question templates.

Redesigning the instructions for remote voting / July 2020- Current

We are working on redesigning the voting instructions for remote elections. We organized a series of UX research with voters, lawyers, and linguists. Currently, we are designing a new voting instructions manual.
